Dear Ms. McPherren,

My comment on the regulation packet is minimal. On page 172 of the draft regulation packet #(29) relating to section 3 AAC 110.990 contains language that is not consistant with AS 15.60.010(19).

AS 15.60.010(19) states: "numercial identifier" means a voter's date of birth, the last four digits of a voter's social security number, a voter's Alaska driver's license number, or a voter's Alaska identiciation card number or voter identification number.

The Division no longer requests a voter's full SSN number, as the regulation packet suggests, we are only allowed to request the last four digits of the SSN. If the voter chooses to provide the full SSN, then we will add it to the voter's registration, but it is not required as a "numerical identifier."

I would suggest revising the proposed regulation to accurately reflect the statute. I would also suggest adding the (19) after the AS 15.60.010 reference to make it easier to find as a cross reference.

Let me know if you have any questions regarding my comment. What a large task your office has undertaken in updating these regulations.

Thank you for the oppotunity to comment on these regulations.

Lauri Wilson
Election Coordinator and Acting Region I Supervisor
